Bespoke Gates

If you have a specific gate design in mind we are here to bring your vision to life. Our forte lies in the creation of bespoke gates. Our joiners offer the flexibility of crafting entirely bespoke gates made to measure.

Step by Step Guide

1

Measure

Measure the width of your space in 3 places. Top, middle and bottom.

- Will you need posts?
- Which way will the gate open?
- Is there room for the gate to swing?

Choose

2

- Choose your favourite style of gate.
- Softwood or hardwood?
- Do you want to add a personal touch with an engraved house number or name?
- Is ironmongery required?

3

Order

Once you have an idea of the gate you would like our expert team will send you an estimate. Once your gates are made we can deliver and install them if required.

Choose your style

Bowforth Gate

Distinguished by curved crosses and pointed palings, this gate is handcrafted from softwood or hardwood.

Thornton Gate

A best selling design crafted from tongue and groove redwood with the addition of contemporary metal rods.

Welburn Gate

Showcasing large curved & chamfered crosses against planed palings, This stylish design looks stunning from both sides.

Curved Top Boarded Gate

Crafted with a choice of flat or curved top. A durable design perfect for adding privacy to any entrance.

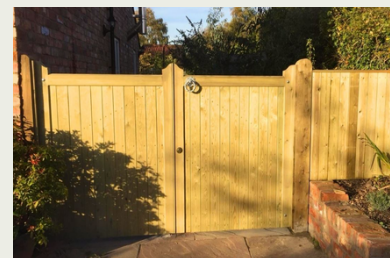

Entrance Gates

A traditional design with rounded edge rails, simple planed, mortise and tenon doweled joints. Steel bolts secure the rails and braces.

Fir Gates

Hand crafted from high-quality Scandinavian redwood or Iroko hardwood and fitted with metal rods, the perfect driveway statement.

Flat Top Boarded Gate

Simply designed, substantial doors crafted with a flat top and a tongue & groove style for a gate that is built to last a lifetime.

Choose your style

Settrington Gate

Exquisite gates that add a touch of sophistication to any property. Meticulously constructed with mortise and tenon joints.

Cloughton Gate

Crafted from Joinery grade redwood or Iroko with a solid tongue and groove section and an ornate open design top.

Garage Doors

Made to measure the doors can be made with (planed boarded) or without (ledge and brace) a frame.

Bent Heel & Paling Gate

A unique five-bar gate ideal for adding privacy to your property. Featuring round-edged rails and braces.

Bent Heel Gates

Similar to our entrance gate planed with steel bolts, these gates boast round-edged rails, braces and a bent heel.

Diamond Braced Gate

A wooden five bar gate featuring a symmetrical diamond brace detail made out of softwood.

Duncombe Gates

A best selling design featuring an elegant sweeping style that enhances the allure of any entrance or driveway.

Choose your style

Gunstock Gates

Boarded gates. Manufactured from selected tongue and groove redwood boards, with a subtle curve detail.

Laurel Gates

A hybrid version of our Wessex and Bowforth gates. Distinguished by curved crosses and inset palings.

Pale Gate

A Cottage-style garden gate, combines timeless charm with durability. Featuring diagonal braces.

Curved Pockley Gates

Semi-boarded gates with curved top enhance any driveway or entrance with a striking design.

Pockley Gates

Semi-boarded gates with a straight top made within a robust frame for unparalleled strength and durability.

Wessex Gates

Featuring chamfered crosses above inset palings. The gate boasts ogee-shaped heads and heels.

Ordering your new gates

We take pride in delivering a seamless experience that begins with an estimate and a well-defined timeline, ensuring your project is in expert hands right from the start.

From the first step to the final touch, our service is customised to your needs, promising a result that reflects precision and quality. Offering a bespoke service from start to finish!

For orders and enquiries please email enquiries@duncombesawmill.co.uk

Fitting & delivery

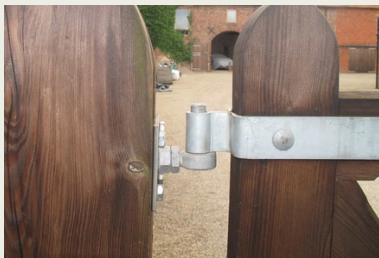

We offer national and local delivery with a variety of delivery options tailored to your needs. For local deliveries in North Yorkshire, we use our fleet of vehicles, and for deliveries further afield, we partner with a trusted local courier.

For shipping outside of the UK, we can recommend several reliable international couriers for your convenience.

We know those finishing touches are vital. Contact us for more details if fitting is required. We not only craft to your requirements but we fit them too!

Hardware

Gate ironmongery by nature of its use has to be sturdy and durable. When choosing the correct ironmongery, take into consideration the style and structure of the gate. Ironmongery can be a design feature as well as functional.

Hinges

We'll help you choose the correct size hinges to support your new gate.

Posts

Available in softwood or hardwood, designed to complement your gate.

Fastenings

From traditional to modern latches, we have gate fastenings to suit all styles.
